

Pull Request Template

The pull request (PR) template is for the developer to describe their ticket to the reviewer. This template could also help the developer to check their workflow.

Version 1

Ticket number and link

.

Checklist before requesting a review

- ☐ I have performed a self-review of my code
- ☐ If it is a core feature, I have added thorough tests.
- ☐ This change requires a documentation update
- ☐ I have my code reviewed by other developers

Changes description (With screenshots if applicable)
