Code Changes

Changes Made:

- feat: added a reusable modal (upload test modal and auto mark modal were just dummy version, I will implemented smart version in future work, please just review the reusable modal component - BasicModal.tsx)
- modify the some icon (e.g. copy test icon, auto-mark icon, upload test icon) to be icon button

view change made at <https://github.com/COMP90082-2024-SM1/TT-Scoring-FrontEnd/assets/103415723/269abd72-2599-47fc-9680-232fcc299f9f>

Review Comments

General Comments

- All looks good.

Specific Comments

File	Line Number	Comment	Following Action
src/components/wrappers/BasicModal.tsx		@Dongning Li feels it might be better if set a min-height for the basic modal.	Actually no need to implement that, the BasicModal could fit the size of modal content

Conclusions

 all looks good
