## Code Changes

### Changes Made:

- Duplicate test
- Refetch test list and refresh page

### General Comments

- Handle boundary condition first, by using if return

### Specific Comments

File	Line Number	Comment	Following Action
src/components/test-developer/TestList.tsx	109	Use setReFetchTestList(prev=>!prev)	Accepted.

## Conclusions

 Use prev=>!prev instead of !useState to change state of para
